

ACKNOWLEDGMENTS

This report was funded by the United States Agency for International Development (USAID) through its Regional Development Mission for Asia (RDM/A) and its Asia and the Near East (ANE) bureau. It was prepared as the first task of the Clean Development and Climate Program (CDCP), a new program of the USAID RDM/A.

The report's preparation and revision was guided by Orestes Anastasia and Winston Bowman of RDM/A. The content was gathered by a team of 20 consultants working throughout the Asia region, who consulted with over 200 key stakeholders. Their efforts were coordinated by ECO-Asia Chief of Party (Peter du Pont) and Deputy Chief of Party (Pradeep Tharakan) of the International Resources Group (IRG), who wrote the final content of the main report. They were assisted by Bryn Weaver, Research Assistant (IRG). Pierre Beaulne, ECO-Asia Communications Director, Academy for Educational Development, oversaw production.

Pradeep Tharakan led the team that managed the data collection and analysis for the regional and country-specific data on energy supply and demand, and related demographic, economic, environmental, and social statistics. Butchaiah Gadde and Ali Hasanbeigi assisted in this research. Grayson Heffner provided input on energy efficiency for Section 2 and for Section 3 on energy demand and supply trends, as well as the status of clean energy options.

In addition to the main report, six country reports were prepared by authors sub-contracted through Winrock International, The Energy and Resources Institute (India), and the Joint Graduate School for Energy and Environment (Thailand). Country reports were prepared by Steven Zeng and James Wang (China); Grayson Heffner, Ranjan Bose, Preeti Bhandari, Ritu Mathur, and Atul Kumar (India); John Kadyszewski, Bernard Castermans, Architrandi Priambodo, and Dannandyatti (Indonesia); Monthon Kumpengsath, Navadol Siripojana and Pannipha Dokmaingam (Thailand); Flordeliza Andres, Jessie Todoc, and Cirila Alvaran (Philippines); and Grayson Heffner, Duc Minh, Quang Cu Tran, and Nguyen Tuan Anh (Vietnam).

We would also like to thank the following people for providing input and comments on the report: Mr. Alex Ablaza of the Asian Development Bank (ADB) (Philippines); Mr. Shabbir H. Gheewala of the Joint Graduate School for Energy and Environment (Thailand); Ms. Bernadette Hale of the US Embassy in Jakarta (Indonesia); Mr. Sohail Hasnie of the ADB; Mr. Stuart Jeffcott of the International CFL Harmonization Initiative (UK); Mr. Nitin Pandit of the International Institute for Energy Conservation (US); Ms. Napaporn Phumaraphand of the Electricity Generating Authority of Thailand (Thailand); Mr. John Reid of Biofuel Merchants, LLC (Switzerland); Mr. Nathan Sage of the U.S. Embassy in Hanoi (Vietnam); Mr. Scott Smouse of the National Energy Technology Laboratory (US); Mr. Richard Stevenson (US); Mr. Griffin Thompson of the US Department of State (US); Mr. Samuel Tumiwa, ADB (Philippines); and Ms. Susan Wickwire of the US Environmental Protection Agency (US).

We would also like to thank William Breed, Olivier Carduner, Collin Green, Cindy Lowry, Duane Muller, Jas Singh, and Dennis Zvinakis of USAID for their review comments.
